

Maulik Moradiya

PHP / Laravel Backend Developer

+91-8433518935 | maulikmoradiya6@gmail.com | Surat, Gujarat, India | github.com/maulikmoradiya | <https://maulikmoradiya.github.io/> | [linkedin.com/in/maulikmoradiya](https://www.linkedin.com/in/maulikmoradiya)

PROFESSIONAL SUMMARY

Backend Developer with 5+ years of experience designing and delivering scalable REST APIs and SaaS applications using PHP and Laravel. Reduced SQL query response times by up to 35% through indexing and query restructuring. Delivered 20+ production APIs for real-time manufacturing data in an Agile environment. Strong focus on clean MVC architecture, API security (Laravel Sanctum), and integrating third-party services in high-traffic, production-grade systems.

WORK EXPERIENCE

Sr. PHP Developer (CodeIgniter) | **NRV DesignX Pvt Ltd** | Noida, India *Oct 2023 – Oct 2025*

- Architected and maintained scalable modules for DFOS, a SaaS platform serving 10+ manufacturing clients with real-time shopfloor intelligence.
- Designed and shipped 20+ RESTful APIs for real-time manufacturing data processing, improving system throughput and scalability across multiple production units.
- Optimised complex SQL queries using indexing and query restructuring, reducing API response times by up to 35%, directly improving end-user experience.
- Implemented secure API authentication and role-based access control (RBAC), preventing unauthorised data access across multi-tenant environments.
- Collaborated with frontend and QA teams in Agile sprints; participated in code reviews and managed production deployments and hotfixes.

PHP Developer (Laravel) | **Kanhasoft** | Ahmedabad, India *Aug 2021 – Sep 2023*

- Engineered robust Laravel APIs for the Pluto recruitment platform, enabling seamless candidate management and recruiter workflow automation.
- Built and maintained modules for DMScore, a dental marketing analytics SaaS, improving data pipeline performance for large datasets.
- Wrote unit and integration tests using Laravel Dusk, reducing regression bugs by improving test coverage.
- Optimised heavy database queries on MySQL, cutting load times on data-intensive pages.

PHP Developer (Laravel) | **Lathiya Brothers Pvt. Ltd.** | Surat, India *Sep 2020 – Jul 2021*

- Developed core booking, scheduling, and user management modules for LB Dream Events, an end-to-end event management platform.
- Improved overall system performance by 40% through SQL query optimisation and strategic indexing on high-traffic database tables.
- Fixed production bugs and enhanced existing features based on client feedback, reducing reported issues by improving stability.

ASP.NET Developer | **Forefront Infotech** | Surat, India *May 2019 – Sep 2020*

- Developed and maintained ASP.NET web applications and built NopCommerce Plus plugins, delivering new features and improving platform efficiency for e-commerce clients.
-

PROJECTS

Madhav AI Technologies – Website for agency — *Madhav AI Technologies*

- Develop and maintain a website for agency. (Under Development)
- Tech: React, HTML, CSS, JavaScript
- madhavaitechnologies.com

DFOS – Digital Factory Operating System — *NRV DesignX Pvt Ltd*

- Multi-tenant SaaS platform enabling manufacturing companies to design, automate, and measure shopfloor operations with real-time intelligence.
- Tech: CodeIgniter, PHP, MySQL, RESTful APIs, HTML, CSS, JavaScript

Pluto – Recruitment Platform — *Kanhasoft*

- Candidate management and recruiter dashboard with authentication, role-based access, and API integrations for job matching workflows.
- Tech: Laravel, MySQL, REST APIs, Laravel Sanctum, HTML, CSS, JavaScript

DMScore – Dental Marketing Analytics — *Kanhasoft*

- Analytics SaaS platform for dental practices; architected scalable data modules and improved reporting performance on large datasets.
- Tech: Laravel, PostgreSQL, HTML, CSS, JavaScript

LB Dream Events – Event Management Platform — *Lathiya Brothers Pvt. Ltd.*

- Full-cycle event management system handling, scheduling, coordination. Reduced query load by 35% through DB optimisation.
- Tech: Laravel, MySQL, HTML, CSS, JavaScript

TECHNICAL SKILLS

Backend: Laravel (primary), PHP, CodeIgniter, REST API Development, Laravel Queues, Laravel Sanctum, Payment Gateway Integration

Database: MySQL, PostgreSQL

Frontend: HTML, CSS, JavaScript, jQuery, Bootstrap, Tailwind CSS, Livewire, React.js

Architecture: MVC, RESTful APIs, API Authentication, SaaS, Database Optimisation

Tools: Git, GitHub, Jira, Trello, VS Code

Languages: English (professional), Hindi, Gujarati

EDUCATION

MSc. Information Technology | M.S. University of Baroda

Jun 2017 – May 2019

- Advanced software development, database management, and web technologies.

BSc. Information Technology | Mumbai University

Apr 2013 – Apr 2016

- Foundational IT concepts, programming, and computer systems.
